COMPUTER KNOWLEDGE

- 1) Which of the following operating system is not owned and licensed by the company?
1) Unix 2) Linux 3) Windows 2000
4) Mac 5) Windows
- 2) If you click at ctrl +I the selected text is converted into?
1) Underlined 2) Italics
3) Italics and Underlined 4) Bold 5) Copy
- 3) The ability to find an individual item in a file Immediately ?
1) Direct access 2) File allocation table
3) Sequential access 4) Directory
5) None of these
- 4) The two major categories of software include
1) Operating system and utility
2) Personal productivity and system
3) System software and application software
4) system and utility 5) None of these
- 5) Uses the entire capacity of a dedicated link?
1) Circuit switching
2) Virtual Circuit packet switching
3) Datagram packet switching
4) All of the above
5) None of the above
- 6) A Set of instructions to computer to perform any action is called ?
1) Program 2) Mentor 3) Compiler
4) Instructor 5) None of these
- 7) The contents of are lost when the computer turns off.
1) input 2) output 3) storage
4) memory 5) None of these
- 8) Reusable optical storage will typically have the acronym....
1) CD 2) DVD 3) ROM
4) RW 5) None of these
- 9) The background of any word document.....
1) is always white color
2) is the color you present under the options menu
3) is always the same for the entire document
4) Can have any color you choose
5) None of these
- 10) Computer literacy day is celebrated on
1) 2 December 2) 22 December
3) 2 September 4) 22 September
5) None of these
- 11) A device or system not directly connected to the CPU is ?
1) Online 2) Circuit 3) Dial-up
4) Off-line 5) All of these
- 12) What is the short cut key to open the Open dialog box?
1) F12 2) Shift F12 3) Alt + F12
4) Ctrl+f12 5) F11
- 13) We have different types of storage devices. One of them is 'SD' memory card.SD stands for ?
1) Secondary 2) Standard data
3) Secure data 4) Standard Digital
5) Secure Digital
- 14) The computers which measures physical quantities like temperature, heat etc.... are referred to as :
1) digital 2) Hybrid 3) Analogue
4) Data 5) None of these
- 15) A device that forwards data packets from one network to another is called a?
1) Bridge 2) Router 3) Gateway
4) Switch 5) Repeaters
- 16) Servers are computers that provide resource to other computers connected to a ?
1) Client 2) network 3) Mainframe
4) supercomputer 5) None of these
- 17) The instruction given by the computer operator is called
1) File 2) Data 3) Instructions
4) Processing 5) Command
- 18) JAVA is an example oflanguage?
1) low-level 2) Computer
3) System programming 4) high -level
5) Programming
- 19) Portrait and Landscape pertains to:
1) Paper Size 2) Page Layout
3) Page orientation 4) Margin type
5) Page insert
- 20) A half byte is known as:
1) Bit 2) Data 3) Nibble
4) Half byte 5) Double byte
- 21) refers to maintaining and assuring the accuracy and consistency of data?
1) Data interpretation 2) Data independence
3) Data integrity 4) Data redundancy
5) All of the above

- 22) A telephone number, a birth date and a Customer name are examples of...
- 1) A record
 - 2) Data
 - 3) File
 - 4) Database
 - 5) Project
- 23) Why is the Caps Lock key referred to as a Toggle key ?
- 1) Because it cannot be used to delete
 - 2) Because it cannot be used for entering number
 - 3) Because it cannot be used to insert
 - 4) Because it's function goes back and forth every time it is pressed
 - 5) None of these
- 24) A sales clerk at a checkout counter scanning a tag on an item rather than keying it into the system, is using?
- 1) Item data automation
 - 2) Input automation
 - 3) Scanning automation
 - 4) Source data automation
 - 5) None of these
- 25) Amazon.com comes under the following business model:
- 1) B2B
 - 2) B2C
 - 3) C2C
 - 4) C2D
 - 5) B2D
- 26) Binary equivalent of 10 is ?
- 1) 1110
 - 2) 1010
 - 3) 1011
 - 4) 0111
 - 5) 1001
- 27) Which one of the following input device is user-programmable ?
- 1) Dumb terminal
 - 2) Smart terminal
 - 3) VDT
 - 4) Intelligent terminal
 - 5) None of the above
- 28) The language used for children and kids for drawing graphic line diagrams?
- 1) PROLOG
 - 2) LOGO
 - 3) COMAL
 - 4) ALCOL
 - 5) ALOGE
- 29) Programs such as internet explorer that serves navigation windows into the Web are called.....
- 1) Hyper text
 - 2) Networks
 - 3) Internet
 - 4) Web browser
 - 5) None of these
- 30) _____ is not a form of biometrics
- 1) retina scan
 - 2) Finger print
 - 3) Breath scan
 - 4) Password
 - 5) Body scan
- 31) In MICR, C stands for.....
- 1) Code
 - 2) Colour
 - 3) Computer
 - 4) Character
 - 5) None of these
- 32) A Computer intensive problem runs a
- 1) Server
 - 2) Mainframe
 - 3) Super Computer
 - 4) Super PC
 - 5) None of these
- 33) Which of the following is the latest Processor ?
- 1) 15
 - 2) 17
 - 3) 13
 - 4) Core to dual
 - 5) None of these
- 34) In MS word the margins, Indents and tabs are set by ?
- 1) Status bar
 - 2) Ruler bar
 - 3) Toll bar
 - 4) Menu bar
 - 5) Title bar
- 35) Total height of a line of text including extra spacing is known as
- 1) Alignment
 - 2) Indent
 - 3) Break spacing
 - 4) Line spacing
 - 5) Margin
- 36) Which of the following task is done by using bookmark?
- 1) To add anchors in web page
 - 2) To mark end of a paragraph
 - 3) To jump to specific location
 - 4) None of these
 - 5) To add hyperlinks
- 37) From which menu you can insert header and footer?
- 1) Insert
 - 2) View
 - 3) Format
 - 4) Tools
 - 5) Add
- 38) Modern computers are very reliable but deny are not?
- 1) Cheap
 - 2) Infallible
 - 3) Fast
 - 4) Powerful
 - 5) Accurate
- 39) _____ is the process of dividing the disk into tracks and sectors
- 1) Formatting
 - 2) Allotting
 - 3) Dividing
 - 4) Tracking
 - 5) Proportion
- 40) Which type of resource does have greater probability to become shared resource in a Computer network ?
- 1) Scanner
 - 2) Pen drive
 - 3) Keyboard
 - 4) Mouse
 - 5) None of these
- 41) The number of pixels displayed on a screen is known as the screen.
- 1) Viewing size
 - 2) Color depth
 - 3) refresh rate
 - 4) Resolutions
 - 5) None of these
- 42) A proxy server is used for which of the following ?
- 1) To process client requests for web pages
 - 2) To process client requests for database access
 - 3) To provide TCP/IP
 - 4) To provide security against unauthorized users
 - 5) None of these
- 43) A contains buttons and menus that provide quick access to commonly used commands?
- 1) Menu bar
 - 2) Tool bar
 - 3) Window
 - 4) Action bar
 - 5) None of these
- 44) Which among the following is not a security / privacy risk?
- 1) Hacking
 - 2) Virus
 - 3) Spam
 - 4) Phishing
 - 5) None of these
- 45) Which of the key is not on the number keypad?
- 1) Ctrl
 - 2) Del
 - 3) Enter
 - 4) Num Lock
 - 5) None of these
- 46) Which of the following refers to stand alone programs?

- 1) Executable programs 2) Source program
 3) Object programs 4) All of the above
 5) None of the above
- 47) What is the keyboard shortcut to move backward through the tabs?
 1) SHIFT +TAB 2) CTRL +SHIFT+TAB
 3) CTRL+TAB 4) ALT+TAB
 5) None of these
- 48) What is the most common tool used to restrict access ?
 1) Access control software 2) Computer keys
 3) User logins 4) Passwords
 5) None of these
- 49) Which of the following is not an example of a document file ?
 1) Spreadsheet 2) Memo 3) Letter
 4) Term paper 5) Thesis
- 50) What menu is selected to cut copy, and paste?
 1) File 2) Edit 3) Tools
 4) Table 5) None of the above
- 51) A network geometric arrangement in which a single connection line is shared by a number of nodes is called?
 1) Ring Topology 2) Bus Topology
 3) star topology 4) All of these
 5) None of these
- 52) In windows operating system the shortcut key CTRL+R is used to?
 1) Open the print dialog box
 2) Update the current web page
 3) Close the current window
 4) close the current window 5) None of these
- 53) What is the other name for a LAN Card?
 1) Network Connector
 2) MODEM
 3) Internet Card
 4) Network Interface Card 5) None of these
- 54) MS Word allows creation of ... type of documents by default ?
 1) .txt 2) .win 3) .dot
 4) .doc 5) None of these
- 55) The process of a computer receiving information from a server on the Internet is known as?
 1) Pulling 2) Pushing 3) Downloading
 4) Transferring 5) None of these
- 56) Which of the following is the "Bubble Memory"
 1) Nonvolatile 2) Volatile 3) Permanent
 4) Primary memory 5) None of these
- 57) Which of the following is not standard MS Office Edition ?
 1) Standard 2) Professional 3) Normal
 4) Advanced 5) None of these
- 58) Windows Explorer is a _____?

- 1) Drive 2) Browser 3) Network
 4) Data Base 5) File Manager
- 59) Which type of protocol is used for accessing internet/ web on mobile phones?
 1) HTTP 2) PPP 3) FTP 4) WAP 5) SMPT
- 60) When sending an e-Mail , the line describes the contents of the message?
 1) Subject 2) to 3) Contents
 4) cc 5) None of these
- 61) Uniform resource locator is another name of..
 1) Title bar 2) Web address 3) Title bar
 4) Address bar 5) Formula bar
- 62) What is the default font size of cell content in EXCEL?
 1) 8 2) 9 3) 10 4) 11 5) 12
- 63) Basic input output system (BIOS) is necessary for?
 1) Boot –up 2) Mouse and keyboard only
 3) Revolutions 4) Audio and video system
 5) None of these
- 64) Which of the following cables can transmit data at high speeds?
 1) Coaxial Cable 2) Optic Fiber Cable
 3) UTP Cable 4) twisted pair Cable
 5) None of these
- 65) The software that allows users to surf the Internet is called an?
 1) Search engine
 2) Internet service Provider (ISP)
 3) Multimedia application
 4) Browser 5) None of these
- 66) Shimmer sparkle Text, Blinking Background, etc are known as?
 1) front style 2) Word art 3) Font effects
 4) Text Layout 5) Text effect
- 67) The Output Quality of a printer is measured by
 1) Dots per sq inch 2) Dots per inch
 3) Dots printed per unit 4) Dots printed per line
 5) None of these
- 68) Which of the following is not an internet connection ?
 1) broadband 2) WWAN 3) DSI
 4) WLAN 5) Dial –up
- 69) Unsolicited commercial email is commonly known as ?
 1) Junk 2) Spam 3) Hoaxes
 4) Hypertext 5) None of these
- 70) Which of the following is not an output device?
 1) Plotter 2) printer 3) Monitor
 4) Touch screen 5) None of these
- 71) Which process checks to ensure that the components of the computer are operating and

connected properly?

- 1) Processing 2) Saving 3) Editing
 - 4) Booting 5) None of these
- 72) File format is used for data compression and archiving?
- 1) .exe 2) .in 3) .com 4) .zip 5) .win
- 73) is a combination of software and hardware?
- 1) Firmware 2) Shareware 3) Freeware
 - 4) Netware 5) Software
- 74) To move to the beginning of a line of text, press the..... key?
- 1) Alt 2) Page up 3) Enter
 - 4) Home 5) None of these
- 75) 'DOS' floppy disk does not have ?
- 1) A Boot Record
 - 2) A File Allocation 3) A Root Directory
 - 4) Virtual Memory 5) BIOS
- 76) ISDN is an Acronym?
- 1) Integrated Standard Digital Network
 - 2) Intelligent Services Digital Network
 - 3) Integrated Services Digital Network
 - 4) Integrated Services Data Network
 - 5) None of these
- 77) Which of the following is not a term pertaining to the internet?
- 1) Link 2) Touch Pad 3) Browser
 - 4) Search engine 5) All of these
- 78) To insert a new slide in the current presentation. We can choose?
- 1) CTRL+N 2) CTRL+O 3) CTRL+F
 - 4) CTRL+M 5) None of these
- 79) Multiple calculations can be made in a single formula using
- 1) Standard formula 2) Array Formula
 - 3) Complex Formula 4) Smart Formula
 - 5) None of these
- 80) Which of the following is used to identify a user who returns to a Website?
- 1) ASPs 2) Scripts 3) Plug-ins
 - 4) Cookies 5) None of these
- A flaw in a program that causes it to produce incorrect or inappropriate results is called a .
- 1) Byte 2) Attribute 3) Unit problem
 - 4) Bug 5) None of these
- 82) A collaborative network that uses Internet Technology to link business with their suppliers is.
- 1) Internet 2) Intranet 3) Extranet
 - 4) WAN 5) None of these
- 83) In a computer software, the term 'morphing' refers to which of the followings.
- 1) Animation technology in which one image is gradually turned into another
 - 2) Data conversion technique by way of use of codes

- 3) Conversion of digital picture to analog images
 - 4) A soft that saves a network form intrusion
 - 5) Software that links one server to another
- 84) Which of the following is a key function of a firewall:
- 1) Deleting 2) Coping 3) Monitoring
 - 4) Moving 5) None of the above
- 85) Which of the following is the study of molecules and structures whose ranges from 1 to 100 nanometers?
- 1) Nanoscience 2) Microelectrodes
 - 3) Computer forensics 4) Artificial intelligence
 - 5) None of the above
- 86) Is data has been organized or presented by in a meaningful fashion:
- 1) A process 2) Software 3) Storage
 - 4) Information 5) None
- 87) The components that process data are located in the:
- 1) Input device 2) Output device
 - 3)system unit 4) Storage 5) None of the above
- 88) Word processing ,spreadsheet ,and photo editing Are examples of?
- 1) Application software 2) System software
 - 3) Operating system 4) Platform software
 - 5) None of the above
- 89) The PC (Personal computer) and Apple Macintosh are examples of two different:
- 1) Platforms 2) Applications 3) Programs
 - 4) Storage devices 5) None of these
- 90) DSL is an examples of an Connection
- 1) Network 2) Wireless 3) Slow
 - 4) Broadband 5) None of the above
- 91) Bookmarks can be organized by using:
- 1) Containers 2) Menus 3) Folders
 - 4) Tables 5) Structures
- 92) Which of the following symbol is used to specify a cell range?
- 1) Slash 2) Hyphen 3) Colon
 - 4) Asterisk 5) Comma
- 93) An example of web browser is
- 1) Google Chrome 2) Mozilla 3) Safari
 - 4) Epic 5) All the above
- 94) The number of pixels displayed on a screen is known as the screen:
- 1) Resolution 2) Color depth 3) Refresh rate
 - 4) Viewing size 5) None of these
- 95) Smart Card is:
- 1) Special purpose Card
 - 2) Microprocessor Card
 - 3) Processing unit containing memory for storing Data
 - 4) Processing unit for software handling
 - 5) None of these

- 96) Which of the following is not a part of the operating system?
 1) Supervisor 2) Job-control program
 3) I/O control program 4) Performance monitor
 5) None of these
- 97) A program that generally has more user – friendly interface than a DBMS is called a :
 1) Front end 2) Repository 3) Back end
 4) Form 5) None of these
- 98) programs used to create or modify bitmap images are called:
 1) Illustration programs 2) Images editor
 3) Graphical modifiers
 4) Bit publishing packages 5) None of these
- 99) First RAM chip was introduced by which of the following?
 1) Microsoft 2) Intel 3) dell 4) HP 5) Apple
- 100) Reel-to-Reel tape drives are commonly used with
 1) Mini computers 2) Micro computers
 3) Mainframes computers 4) Laptops
 5) personal computers
- 101) In the URL http:// www.sakshieducation.com, the portion labeled http is
 1) Host 2) Domain name 3) Protocol
 4) top-level domain 5) None of these
- 102) RTF stands for:
 1) Real Time Formatting 2) Rich text Format
 3) Real Time Fonts 4) Real Text Format
 5) None of these
- 103) Which of the following is NOT done by a modern?
 1) Transmission speed 2) Data Accuracy
 3) Error detection and correction
 4) Data compression 5) None
- 104) Which of the following is a program coded in programming language:
 1) Target code 2) Source code 3) Block
 4) All the above 5) None
- 105) who among the following developed Unix Operating system?
 1) Bat walter 2) John Bird 3) Ken Thompson
 4) Richard bird 5) None
- 106) A picture, map or graphics or image that can be used in a document is known as?
 1) Clip 2) Object 3) Clip Board
 4) Drag Drop 5) None of these
- 107) A repair for a known software bug, usually available at no charge on the internet , is called a
 1) Version 2) Patch 3) Tutorial
 4) FAQ 5) None
- 108) Favorite are accessible from the __ menu:
 1) Start 2) Title 3) stop 4) file 5) None
- 109) Technology no longer protected by copy right, and available to everyone is considered to be:
 1) Open 2) Experimental 3) Proprietary
 4) In the public domain 5) None of these
- 110) The earliest calculating devices are:
 1) Clock 2) Difference engine 3) Abacus
 4) Calculator 5) None
- 111) Which is the other Name for LAN card:
 1) NIC 2) Network Connector 3) MODEM
 4) Internet Card 5) None
- 112) Internet is:
 1) Complex system 2) Decentralized system
 3) Dynamic system 4) All of these 5) None
- 113) What is the process of copying software program from secondary storage media to the hard disk called?
 1) Configuration 2) Download 3) Storage
 4) Upload 5) Installation
- 114) Which command is used to close the Workbook of Excel?
 1) Alt +F4 2) Ctrl +W 3) Ctrl +R
 4) Ctrl +X 5) None of these
- 115) Website is a collection of :
 1) HTML documents 2) Graphic files
 3) Audio and video files 4) All of these
 5) None of these
- 116) Which of the following protocols is used for WWW:
 1) FTP 2) HTTP 3) W3C 4) UDC 5) None
- 117) FAT stands for
 1) File Activity Table
 2) File Allocation Table 3) File Alles Tape
 4) File Accommodation table 5) None
- 118) Which protocol E-Mail facility among different hosts:
 1) SMTP 2) FTP 3) TELNET
 4) SNMP 5) None of these
- 119) A template is a
 1) Pattern of work sheet 2) Heading
 3) Title 4) Theme 5) None of these
- 120) The centralized processing system in a bank makes use of which of the following:
 1) Stand alone computers
 2) Shared networking
 3) Computers connected by a communication Network
 4) Computers connected by internet
 5) None
- 121) The term SWIFT stands for which of the following:
 1) Society for world-over international Financial Transfers
 2) Society for world-wide interbank financial Telecommunication

- 3) Society for world-wide interbank financial Telecommunication
 4) Society for worst international financial Terrorism
 5) None
- 122) The funds that could be loaded into a card, which could be used as cash in case of need.
 1) Credit card 2) Smart card
 3) Electronic cash 4) Narrow money
 5) None
- 123) Which of the following is the part of hexadecimal number system?
 1) A 2) A 134 3) 1600 4) 1010 5) None
- 124) IDRBT stands for which of the following:
 1) Institute for Development and Research in Banking Technology
 2) Institute for Development and Research in Business Technology
 3) Institution of Development and Research in Banking Technology
 4) Institute for Development of Rural Banking Technology
 5) None of these
- 125) The term CAD in the context of use of Computer mean :
 1) Computer application design
 2) Computer aided design
 3) Computer appraised data
 4) Computer assisted debit 5) None of these
- 126) What is a web-site?
 1) A place from where we can get information in documents and files
 2) A site that is owned by any particular company
 3) A location on the world wide web
 4) A place from where we can access internet
 5) None of the above
- 127) A collection of worksheets is called:
 1) Excel Book 2) Work sheets
 3) Excel sheets 4) Work book
 5) None of the above
- 128) Registers are located in
 1) Memory 2) ALU 3) OS
 4) CPU 5) None of these
- 129) ODBC stands for
 1) Object database connectivity
 2) Oral database connectivity
 3) Oracle database connectivity
 4) Open database connectivity 5) None of these
- 130) Which kind of malware typically has a tendency to reside in/to get attach to a computer program?
 1) Worm 2) Trojan Horse 3) Computer Virus
 4) All the above 5) None of these

- 131) What does router do in a network?
 1) Forwards a packet to all outgoing links
 2) Forwards a packet to the next free outgoing links
 3) Determines on which outgoing link a packet is to be forwarded
 4) Forwards a packet to all outgoing links except the originated links
 5) None of these
- 132) Each cell in a Microsoft office excel document is referred to by its cell address, which is the
 1) Cell's column label
 2) cell's column label and work sheet tab name
 3) Cell's row and column labels
 4) Cell's row label 5) None of these
- 133) Windows7 is an example of an
 1) Application software 2) Browser
 3) Operating system 4) Shareware
 5) None of these
- 134) Many individuals create their own personal sites Called web logs or
 1) Social network 2) Blogs 3) Wikis
 4) Search engines 5) None of these
- 135) Programs that automatically submit your search Request to several search engines Simultaneously are called
 1) Meta search engines
 2) Inclusive search engines
 3) Spiders 4) hits 5) None of these
- 136) LINKEDIN is a.....
 1) search engine 2) Web browser
 3) Social Networking site
 4) Name of operating system 5) None of these
- 137) A Computer that is on the network is a
 1) Node 2) terminal 3) Client 4) Online
 5) None of these
- 138) The name a user assigns to a document is called an
 1) File name 2) program 3) Record
 4) Data 5) None of these
- 139) The system /tool which has made it possible to reduce paper work in offices is..
 1) LAN 2) WAN 3) E-Mail
 4) Paper shredder 5) None of these
- 140) Decision support system in banking technology means a system which?
 1) Allows creation of simulations
 2) Allows analyzing created situations
 3) Don't Allows creation of simulations
 4) 1 and 2 5) None of these
- 141) Computer audit involves review of ----
 1) Established policies
 2) Efficiency of operations

- 3) Checking of data integrity
4) All 5) None of these
- 142) The electronic payment system seeks to automate financial transaction as far as possible. What is the most popular electronic payment system ?
1) The ATM 2) The HWAK 3) Electronic purse
4) Electronic cheque 5) None of these
- 143) The _____ is a device that connects in inputs to out puts
1) Cross point 2) Crossbar 3) Modem
4) RAM 5) None of these
- 144) Which multiplexing technique transmits analogue signals?
1) FDM 2) Synchronous TDM
3) asynchronous TDM 4) 2 and 3 5) None
- 145) ---- was a search engine system for the gopher protocol
1) gobbler 2) archie 3) mikky
4) Veronica 5) None
- 146) array is ----
1) Linear data structure 2) Object 3) class
4) interface 5) None
- 147) Flash memory is a type of -----?
1) ROM 2) PROM 3) EPROM
4) EEPROM 5) RAM
- 148) Data going into the computer is called?
1) Output 2) algorithm 3) input
4) flowchart 5) All of these
- 149) How many values can be represented by a single byte?
1) 4 2) 16 3) 64 4) 256 5) 512
- 150) Transformation of input into output is performed by
1) Peripherals 2) memory 3) Storage
4) The input output unit 5) The CPU
- 151) Which of the following refers to a small, single site network?
1) LAN 2) DSL 3) RAM 4) USB 5) CPU
- 152) A set of instructions telling the computer what to do is called
1) Mentor 2) Instructor 3) Compiler
4) Program 5) Debugger
- 153) Computer connected to a LAN can
1) Run faster 2) Go on line
3) Share information 4) E-mail 5) none
- 154) Which of the following refers to the memory in your computer?
1) RAM 2) DSL 3) USB 4) LAN 5) CPU
- 155) Information travels between components on the motherboard through ?
1) Flash memory 2) CMOS 3) Bays
4) buses 5) Peripherals

- 156) One megabyte equals approximately .
1) 1000 bytes 2) 1000 bits 3) 1 million bytes
4) 1 million bits 5) 2000 bytes
- 157) When you are working on a document on pc, where is the document temporarily stored?
1) RAM 2) ROM 3) The CPU
4) Flash memory 5) The ed-ROM
- 158) If the system has no ability to store data then it is a _____
1) Dump terminal 2) Computer
3) Microprocessor 4) Micro controller
5) Mini processor
- 159) ----- is an electronic device for reading printed barcodes.
1) Barcode reader 2) Barcode scanner
3) Bar code converter 4) Both 1 and 2
5) None of these
- 160) The simultaneous processing of two or more programs by multiple processors is ?
1) Multiprogramming 2) Multitasking
3) Time-sharing 4) Multiprocessing
5) None
- 161) The advantage of touch screen is -----
1) that it is not as tiring as the keyboard input
2) that it uses little screen space for each choice
3) That it is natural to touch things
4) All of the above 5) None
- 162) A hacker contacts you my phone or email and attempts to acquire your password?
1) Spoofing 2) Phishing 3) Spamming
4) Bugging 5) None of these
- 163) Getting an instruction from the main memory to the CPU is known as -----
1) getting 2) gathering 3) Fetching
4) Framing 5) Downloading
- 164) A silicon chip containing CPU, ALU and some memory is known as -----
1) Microcontroller 2) Microprocessor
3) Computer 4) Minicomputer
5) Laptop
- 165) Which of the following problem causes an exception?
1) Missing semicolon in statement in main
2) A problem is calling function
3) A syntax error 4) A run-time error
5) None
- 166) A Computer devices its basic strength from?
1) Speed 2) Accuracy 3) Memory
4) All the above 5) None
- 167) To access a mainframe or supercomputer, users Often use a ----
1) Terminal 2) node 3) desktop
4) handheld 5) None

- 168) Which of the following is not a mode in starting windows
 1) Command prompt 2) Safe Mode
 3) Normal Mode 4) Turbo Mode
 5) None
- 169) Which of the following process rearranges file fragments into contiguous files.
 1) Folder folding 2) Defragmentation
 3) Unfragging 4) Disk Scanning 5) None
- 170) Which of the following server stores and manages files for network users?
 1) Authorization server 2) Main server
 3) Web server 4) File server 5) None of these
- 171) Custom software developed to address specific needs of a company is usually referred to as :
 1) Developments 2) Privately owned
 3) Copyrighted 4) Proprietary
 5) None of these
- 172) CD-ROM stands for
 1) Central Disk-Remote Open Mouse
 2) CD-Resize 3) CD-read only Memory
 4) CD- Remote Open Mouse 5) None of these
- 173) What is the name of an application program That gathers user information and sends it to someone through internet?
 1) Virus 2) Spybot 3) Logic Bomb
 4) Security Patch 5) None of these
- 174) Server or computer that provide resources to other computers connected to a ?
 1) Network 2) Mainframe
 3) Supercomputer 4) client 5) None of these
- 175) Which of the following is the fastest memory?
 1) DDR RAM 2) DDR2 RAM
 3) DDR3 RAM 4) Swap Memory
 5) None of these
- 176) "Process" in computer terminology is synonymous to which of the following ?
 1) Job 2) Program 3) Task 4) Method 5) Call
- 177) Fire wall is used to.....
 1) Select Network 2) Protect Network
 3) Highlight Network 4) All of these
 5) None of these
- 178) The button that displays the window over the entire screen is?
 1) Scroll box down size 2) Restore down
 3) Minimize 4) Maximize 5) None of these
- 179) Which of the following cannot be done by a computer virus.....?
 1) Loss of Data 2) Deletion of file
 3) Corruption of a program 4) All of these
 5) None of these
- 180) What do we call a copy printed through a computer printer.....?

- 1) Soft copy 2) Hard copy
 3) Computer printed 4) Laser print
 5) None of these
- 181) The .x/s extension is used for ____ files?
 1) Windows 2) Access 3) Power point
 4) Word 5) Excel
- 182) What is the term for calculations used within spreadsheets?
 1) Analyses 2) Ranges 3) Formulas
 4) Recalculations 5) Values
- 183) A collection of Raw Facts is ?
 1) Input 2) Output 3) Information
 4) Data 5) File
- 184) A _____ is a computer connected to two networks?
 1) Link 2) server 3) Gateway 4) Bridge way
 5) None of these
- 185) In a customer database, a customer's surname would be keyed into a ?
 1) Row 2) Text field 3) Record
 4) Computed 5) None of these
- 186) A flaw in a program may that causes it to produce incorrect or inappropriate results is called a ?
 1) Bug 2) Hacking 3) Phishing
 4) Attribute 5) None of these
- 187) Which of the following can input graphical images and picture for computers?
 1) Plotter 2) Scanner 3) Mouse
 4) Printer 5) Keyboard
- 188) Attributes can defined as ?
 1) Entity 2) Switch board 3) Macro
 4) Pages 5) None of these
- 189) Where will we find the referential integrity command ?
 1) Tools 2) Switch Board 3) Format
 4) Table 5) None of these
- 190) What refers to a set of characters of particular design?
 1) Key face 2) Formation 3) Calligraph
 4) Stencil 5) Type face
- 191) Smart card is.....?
 1) Special purpose Card
 2) Micro processor card
 3) Processing unit contains memory for storing data
 4) Processing unit for software handling
 5) None of these
- 192) Which of the following would you find on LinkedIn?
 1) Games 2) Connections 3) Chat
 4) Applications 5) None of these
- 193) What is a URL?
 1) A computers software program

- 2) A type of programming object
 3) The address of a documents or page on the world wide web
 4) An Acronym for unlimited Resources for learning
 5) A piece of Hardware
- 194) ----- is a technique that is used to send more than one call over a single line?
 1) Digital transmission
 2) Infrared transmission 3) Digitizing
 4) Multiplexing 5) Streaming
- 195) To access properties of an objects, the mouse technique to use is?
 1) Dragging 2) Dropping 3) Right –clicking
 4) Shift –clicking 5) None of these
- 196) For internet banking a customer requires...?
 1) Personal computer and a telephone line.
 2) Personal computer, telephone line and modem
 3) Personal computer, telephone line & Internet service provider
 4) Personal computer, telephone line, modem & Internet service providers
 5) None of these
- 197) A touchpad responds to ?
 1) Light 2) Pressure 3) Clicking
 4) the sense of heat from fingerprints
 5) None of these
- 198) The computer that hosts your e-mail account is known as?
 1) Host 2) e-mail client 3) e-mail server
 4) Listserv 5) None of these
- 199) The most common pointing input devices?
 1) Trackball 2) Touchpad 3) Touch screen
 4) Mouse 5) Scanner
- 200) What does a website address uniquely specify?
 1) Web Browser 2) Web site 3) PDA
 4) Storage 5) Hard disk
- 201) Expansion cards are inserted into?
 1) Slots 2) Peripheral devices 3) The CPU
 4) The back of the computers 5) Pegs
- 202) The Name of a Microsoft Office word document is displayed in both the _____ and the taskbar?
 1) Menu bar 2) Task bar 3) Formatting Tool bar
 4) Standard Tool bar 5) Title Bar
- 203) The display size of a monitor is measured?
 1) Zig-Zag 2) Horizontally 3) Vertically
 4) From center to the furthest corner
 5) Diagonally
- 204) Operating system's and utility program are in a class of software known as?
 1) Application Software
- 2) sequential software
 3) Software suites
 4) BIOS softwate
 5) System software
- 205) The justification that aligns text on both margins of document in word is ?
 1) Justify 2) Bold 3) centre
 4) Right 5) Balanced
- 206) What do we call the Inbuilt storage Device in the computer ?
 1) Hard disk 2) Mother Board 3) Ram
 4) ROM 5) None of these
- 207) A byte can represent any number between 0 and _____?
 1) 2 2) 255 3) 256 4) 1024 5) 1025
- 208) Which part of the computer helps to store information?
 1) Monitor 2) Keyboard 3) Disk drive
 4) Printer 5) None of these
- 209) Linux is a type of ----- software?
 1) Share ware 2) Commercial 3) Proprietary
 4) Open source 5) Hidden type
- 210) Which key is used to delete one character to the left of the current position of the cursor?
 1) Backspace 2) Delete 3) Insert
 4) Esc 5) Ctrl
- 211) What of the following means the altering of computer system software to achive a task for which it was not originally designed?
 1) Breaking 2) Hacking 3) Trekking
 4) Pegging 5) None of these
- 212) POST stands for?
 1) Power on self Test
 2) Program on self test
 3) Power on system test
 4) Program on system test 5) None of these
- 213) An educational institution would generally have the following in its domain name?
 1) .Org 2) .edu 3) .inst 4) .com 5) .sch
- 214) Which of the following is not a term pertaining to the Internet?
 1) Keyboard 2) Link 3) Browser
 4) Search engine 5) Hyper link
- 215) Which of the following is used by the browser to connect to connect to the location of the Internet resources?
 1) Linkers 2) Protocol 3) Cable
 4) URL 5) None of these
- 216) Which of the following is Hardware and not software?
 1) Excel 2) Printer driver
 3) Operating system 4) Power point
 5) CPU
